# THE KNOWLEDGE EXCHANGE

"The ability to learn faster than your competitors may be the only sustainable competitive advantage."

- Peter Senge

## New Learning Platform

The Knowledge Exchange, our e-learning platform, leverages the latest Internet-based technologies to create, deliver and facilitate lifelong learning. This new platform has already established itself as the backbone of Armstrong's training program.

The Knowledge Exchange eliminates the barriers of time and distance, creating universal learning-on-demand opportunities.

## Professional Development Hours

The Knowledge Exchange has become a recognized educational platform and is accredited to award Professional Development Hours to participants. Certificates are delivered quarterly and can be used toward professional re-certification requirements.

## Manage Your Internal Training

Let The Knowledge Exchange help ensure the effectiveness of your training programs by providing tracking and feedback. Participants will spend less time looking for, and more time using, the information they need. The carefully prepared on-line quizzes make it easy to identify gaps in understanding, and delivery of material via the Internet allows for simultaneous training at disparate locations, customized to suit individual needs and experience levels.

## Partner with Armstrong

We are interested in collaborating with industry partners to create new and innovative training materials for delivery via The Knowledge Exchange. Organizations can also tailor the material to suit their needs by creating a custom curriculum. When participants have reached appropriate milestones, Armstrong will deliver reports and/or certificates verifying the work completed.

## Register Online

Log on to our web site at [www.armstrongpumps.com](http://www.armstrongpumps.com) for further information and to request your account for The Knowledge Exchange.

You can access The Knowledge Exchange whenever and wherever it is convenient for YOU.

Learn at your own pace and download materials for off-line study.
